NETWORK ADMINISTRATORS

We currently have vacancies for qualified and highly motivated individuals who have a wide experience in planning, building and running vast international network infrastructures.

Skills should include:

- In depth knowledge of routing and switching (specific platforms should include: Cisco, Extreme and Juniper).
- Knowledge of Internet specific protocols and services (TCP/IP, DNS, sendmail, Apache, IIS etc).
- A good knowledge of operating systems.

You will need to be accurate, systematic and logical with an eye for detail. You should also be willing to develop existing skills and learn new ones in order to grow with this rapidly expanding company.

INTERNAL SALES EXECUTIVES

We currently have vacancies for Internal Sales Executives. The position involves first line customer contact through to project completion, and allows many levels of contract and service negotiation.

You will need relevant experience within an Internet sales environment and be fully conversant with current technologies and trends. You will need to communicate in a confident, enthusiastic manner and be self-motivated as well as a high achiever.

We offer a highly competitive salary, which will be profiled to meet individual needs and capabilities, as well as many other benefits. Talented individuals will be rewarded with excellent career prospects.

Please apply with your CV and a hand written letter to:
